

# Male Hair Loss Treatment, Best Hair Transplant Surgeon in Australia

---

## Female & Male Hair Loss

Now retired, Dr Richard Shiell was the Australian pioneer of Hair Transplant Surgery. Dr Russell Knudsen took over the clinic from his close colleague in 2005. Dr Knudsen is highly regarded worldwide as the Australian expert in Hair Restoration having performed over 6000 hair transplant surgeries and he recently won the coveted Manfred Lucas award by the ISHRS (International Society of Hair Restoration Surgery) which is their Highest honour. The Knudsen Clinic has locations in Melbourne, Sydney, Canberra, Brisbane & New Zealand.

## Modern Hair Transplant Surgery Techniques

Female Hair Loss & Male Hair Loss afflicts many people around the world. It is a sensitive issue for all concerned. You can rely on Dr Knudsen for the best advice, treatment and most importantly, results, when you choose hair transplantation procedures.

## Female Hair Loss Treatment

Female hair loss is just as serious an issue as it is for males. Whether it is hereditary, the result of a scalp disease or required to cover plastic surgery scars, female hair loss, hair replacement and hair transplant for women requires specialist attention.

Dr Russell Knudsen is a world renowned expert in female hair transplant treatments and procedures, he has over 28 years experience and has performed thousands of procedures for his female hair transplant patients. You can find out all about him on our About Us page. You can be sure of the knowledge, professionalism, service, care, concern and privacy when you speak with Dr Knudsen who has been providing effective female thinning hair treatment for many years.
